EDUCATION

B.E. – Computer Engineering, Thakur College of Engineering & Technology

Aug 2024 – Jun 2028 | GPA: 9.27 / 10

HSC, Thakur College of Science & Commerce – 2024 | 75.67%

EXPERIENCE

Software Engineer Intern – CodTech IT Solutions (2025)

- Developed REST API Client, File Handling Utility, and Multithreaded Chat App in Java.
- Built AI-Based Recommendation System using ML logic for personalization.
- Collaborated in an agile team to debug and optimize project performance.

PROJECTS

1. Trading Website

Developed a full-stack trading platform using the **MERN stack** to enable users to buy, sell, and manage stock/asset portfolios.

Designed responsive and dynamic UI using **React.js**, implementing reusable components and state management.

Built secure backend APIs using **Node.js** and **Express.js** for authentication, transactions, and portfolio management.

2. Hotel Booking Website

Developed a full-stack **hotel booking web application** using the MERN stack to allow users to search, view, and reserve hotel rooms online.

Designed a responsive and user-friendly frontend using **React.js** with reusable components and dynamic routing.

Built RESTful APIs using **Node.js** and **Express.js** to handle user authentication, hotel listings, bookings, and payment workflows.

Integrated **MongoDB** for storing user profiles, hotel details, room availability, and booking records.

TECHNICAL SKILLS

Languages: Java (DSA), JavaScript, HTML, CSS, MERN Stack

Core: DSA, OOPs, Web Development

Tools: VS Code, Git, GitHub
